Local Law No. __ of 2026

Section 1. Legislative Intent.

The Town of Shelter Island adopted updated Code of Ethics in 2023, which is implemented through the Town's Board of Ethics. This legislation reflects the Town Board and Board of Ethics' commitment to the periodic review of the Code of Ethics to ensure it remains current with applicable laws, guidance, and best practices in municipal governance. Regular evaluation and refinement of the Code promote public confidence in the integrity and accountability of Town officials, employees, and appointed representatives and ensure the ethical framework continues to serve the Town and public interest.

The Board of Ethics reviewed the current Code of Ethics and suggested recommendations to the Town Board for various updates. The Shelter Island Town Board reviewed and revised such recommendations, and wishes to adopt updates that the Town Board believes improve the current Code of Ethics, are in the interest of protecting the Town from unethical activity and providing its employees with clear guidance in performing their duties.

Section 2. Amendment.

The Chapter 8 of the Shelter Island Town Code is hereby amended by deleting the stricken words and adding the underlined words:

ARTICLE I

Standards of Conduct**§ 8-1. Purpose.**

~~Officers and employees of the Town of Shelter Island hold their positions to serve and benefit the public, and not for obtaining unwarranted personal or private gain in the exercise and performance of their official powers and duties. The Town recognizes that, in furtherance of this fundamental principle, there is a need for clear and reasonable standards of ethical conduct. Clear standards will also protect ethical public officials and rebut unfair allegations. This Code of Ethics establishes those standards.~~

Town of Shelter Island ("the Town") officers and employees are expected to perform their duties in the best interests of the public. They may, however, encounter

situations in which what is best for the Town may be different from their own or a relative's personal best interest. In such a case, there may be a "conflict of interest." Such conflicts may seriously undermine public confidence in the Town government.

The purpose of ethics law is to help Town officers and employees avoid conflicts of interest, as well as to disclose and address them when necessary to foster the public's confidence in the government.

New York State's General Municipal Law, Article 18 contains provisions prohibiting certain conflicts of interest of municipal officers and employees. That law applies to all Town employees, which includes officers, employees and advisory Board members, paid or unpaid. Town employees should familiarize themselves with Article 18. It is posted in Town Hall and on the Board of Ethics website along with a Comptroller's description of the law.

The Town has adopted its own Code of Ethics as authorized by Article 18. In addition, there is a substantial body of judge-made law ("common law") in New York addressing potential conflicts of interest. While all court decisions are specific to the facts before the court, those decisions create ethical principles that can be applied to other facts and circumstances where a reasonable person would foresee the appearance of impropriety or where conduct could seriously and substantially violate the spirit and intent of ethics regulations, even where no specific statute is violated.

The Town has enacted this Ethics Code in the interest of creating clear and reasonable standards for its officers and employees. It includes the essential requirements of Article 18, and the common law will also be applied, when needed.

Resolution 2026-

WHEREAS, Bootsie LLC, 85 Shore Road (SCTM #700-13-1-18), has petitioned the Town of Shelter Island for a wetlands permit for proposed excavation, regrading, and planting within 100 feet from wetlands; and

WHEREAS, a Notice of Disapproval was issued by the Town of Shelter Island Building Department on September 19, 2025; and

WHEREAS, pursuant to the New York State Environmental Quality Review Act, the project is a Type II Action, and does not require coordination with other involved agencies; and

WHEREAS, on January 12, 2025, a public hearing was held on the subject application where public comments were received and taken under consideration; and

WHEREAS, the subject application was referred to the Town's environmental consultant C. Theresa Masin, and a report therefrom was issued on October 20, 2025; and the subject application was referred to the Conservation Advisory Council and the Planning Board, and reports were received therefrom on November 5, 2025,

and December 17, 2025, respectively, and the reports were taken into consideration; and

WHEREAS, the Town Board has reviewed said application with regard to the standards of review enumerated in Town Code § 129-5; now therefore be it

RESOLVED, that the Town Board finds that the project meets the standards enumerated in Town Code § 129-5 as, inter alia, the proposed project will not:

- Create a risk of impairing the function and value of the wetland and buffer;
- Diminish any wetland in size, unless the approving authority finds that the proposed activity is water-dependent or requires access to the wetland as a central element of its basic function and will result in the minimum possible alteration or impairment of the wetland.
- Negatively impact the quantity and quality of groundwater.
- Create a net increase in the risk of runoff; and be it further

RESOLVED, that the Town Board further finds that:

- There are no practicable alternatives which allow the project to be constructed outside the regulated area; and
- The applicant has submitted information to describe alternative site locations and configurations sufficient for a determination that the proposed work and location would have a less adverse environmental impact than any other practicable alternative; and
- The applicant will voluntarily implement, within three months of the issuance of the permit, adequate mitigation measures that will contribute to the protection and enhancement of wetlands and wetland benefits; and be it further

RESOLVED, that the Town Board hereby approves the issuance of a Wetlands Permit for the proposed excavation, regrading, and planting within 100 feet of wetlands at 85 Shore Road in accordance with the Site Plan, Planting Plan, and Revegetation prepared by Buttercup Design Group dated January 9, 2026, on the following conditions:

1. In addition to the 25' vegetated buffer proposed, the applicant shall submit a revised site plan that provides for an additional no 25' mow zone on the western side of the pond that corresponds approximately to the 17' contour line on the above-referenced site plan. The proposed vegetated buffer and no mow zone shall allow for 4' wide cleared access path to allow for access to the pond and Shore Road. Additionally, the revised site plan shall replace the additional proposed junipers on the northern end of the property with red cedars.
2. The Town Board notes that the above-referenced site plan was submitted without a stamp or seal and therefore, it is a condition of this approval that the applicant

submit a stamped or sealed site plan that conforms in all respects to the above-referenced site plan and condition #1 of this Resolution.

3. Any well installed on the property shall only have a total volume of 1 horsepower or less than 24 gpm to reduce the draw on the sensitive aquifer.

4. Any work or disturbance, and storage of construction materials shall be confined to the limit of clearing or ground disturbance shown on the approved plans.

5. The Town Board, and/or its designee, reserves the right to require additional native revegetation and/or other restoration measures, in the event that upon final inspection, a finding is made that the goals of establishing a contiguous healthy cover of native or natural vegetation, within the designated re-vegetation areas, have not been achieved.

6. A final wetland inspection shall be applied for and obtained upon completion of all permitted activities. In the event that the Town, or its designee, determines that the property is not in compliance with all of the terms and conditions of this permit, the applicant shall submit additional applications for a final wetland's inspection.

7. Two (2) copies of a final "As-Built" survey shall be submitted with the required final Wetlands inspection.
